Re: Men of Valor Jerico Project

Dear Malinda:

As a new mentor for the Jerico Project at CCA's Metro Facility I wanted to express my appreciation to the Men of Valor for creating this ministry opportunity. This is the first not for profit organization I have been involved with where I leave each meeting feeling as if I have made a real contribution to someone and received something in return. I often tell my inmate that he is ministering to me verse the other way around and the whole experience has been extremely positive. When you feel a little frustrated and down about work or other minor curve balls life throws at you, spending time with my inmate puts my frustration to rest. The positive outlook demonstrated by my inmate is extremely enlightening and shows the power of Christ's impact on his life.

It is humbling to learn how important our weekly visits are these men and provides me a real appreciation for what Men of Valor means to our inmates. This is a very valuable and vibrant ministry that has a real impact on people's lives. I am proud to be part of this organization.

Sincerely,

Jack Wallace  
Senior Vice President
